

CP&R Concrete Protection & Restoration Inc. saving the life of concrete®

WHAT'S NEW AT CP&R?

The beginning of the year is off to a busy start at Concrete Protection & Restoration, Inc.

Roger Noldon and James O'Malley attended the Neogard Sales Leader Conference in Mexico in February. During the conference, CPR received the Neogard "Top Applicator" award for installing the most Neogard product in 2018.

Our very own Kevin Kline (Project Manager) is now the President of the ICRI Baltimore/Washington DC chapter. We are excited to see Kevin take on this role as he works to further develop the education and scholarship opportunities as well as industry outreach programs for the chapter. Kevin said it best, "it is time to really spread the word about ICRI." We can't wait to help him do it!

We have some more exciting news to share - our CP&R family has grown by two tiny humans. Caitlin Corbitt, Sales & Marketing Manager, delivered a beautiful baby boy, Connor, on January 16th. Vanessa Argote, Project Engineer, delivered a precious little girl, Victoria, on February 25th. We have one more baby joining the crew in June, 2019 and we can't wait to meet her!

We are busy gearing up for the ICRI Spring Convention in Jacksonville, Florida. The theme of this convention is "Waterproofing with Aesthetics: Making it Dry and Appealing to the Eye". We are looking forward to the opportunity to expand our knowledge of concrete repair, protection & restoration techniques through networking, technical sessions, and participating in ICRI committee meetings.

As always, we look forward to any upcoming opportunities to work with you in the future. Please never hesitate to be in touch.

QUARTER 1: RECOGNIZING OUR EMPLOYEES OF THE QUARTER

Our employees are what makes CP&R such a success. While we would love to honor all of our great employees, we would like to extend a special congratulations to our Employee of the Quarter winners:

Juan Alvarez, Superintendent - Maryland

Juan is a valuable member of our team, leading the crew on-site at a project located in Silver Spring, MD. He ensures that the team operates efficiently and effectively to meet the project's schedule and budget. Juan is a team player with a can-do attitude.

Salvin B. Santana, Warehouse - Florida

Salvin is a fast learner, always has a positive attitude, and is a team player. Salvin is willing to go above and beyond his job duties, as he is willing to lend a hand in completing whatever is asked of him. Salvin's friendly and positive attitude is a great asset to CP&R.

Taylor Crampton, Project Manager - Maryland

Taylor shows extreme pride in his work, and it is truly inspiring. Taylor sees projects all the way through from conception to completion and always has a great attitude, even when facing challenges. Whatever needs to be done, Taylor is willing to help.

FLORIDA PROJECT UPDATE: LANDMARK AT HILLSBORO CONDOMINIUM

Landmark at Hillsboro Condominium was first built in the mid-1980s with an elevated pool deck above a parking garage. The parking garage had major water leaks due to the deterioration of the existing waterproofing over time. In June 2018, CPR came in to strategically re-waterproof a portion of the pool deck to repair all of the leaks. In the process, we discovered that additional repairs needed to be made due to the concrete structure. The pool deck was also fully renovated with new pool finishes, the fountain was removed and replaced, a new handicap ramp was installed, and new pavers were installed as a new BBQ area was built. The project was completed in March on 2019.

Scope of work:

- Remove all existing pavers, topping slab, and old waterproofing
- Repair all damaged existing concrete
- Re-waterproof pool deck with Carlisle Membrane System
- Remove and replace fountain
- Build new BBQ area
- Remove and replace pool finishes
- Build new handicap ramp

For more information regarding this project, please contact Project Engineer, Ramon Gutierrez at (954)-505-3977.
